Diaspora Policy of the Government of Saint Vincent and the Grenadines 2013

St Vincent and the Grenadines' (SVG) diaspora policy has its roots in the Vincy Homecoming 2009 event geared towards engaging diaspora in the National Agenda, under the banner "As one people in Many Lands, we shape our nation with many hands". The policy recognises the contribution of diaspora "to the development of their homeland" as it represents an "important source of external capital for developing economies, and in many instances surpassing revenues for foreign direct investment and overseas development aid." The government considers that "the maintenance of Diaspora identity is tied to the state's ability to promote among emigrants and their descendants a sense of belonging."

¹ According to the High Commission, 24,000 Vincentian nationals currently reside in the UK.

² In 2023, the Saint Vincent and the Grenadines Parliament amended the citizenship law allowing for "second-generation Vincentians" born overseas to be considered for citizenship. Under the Constitution, a person is automatically a Vincentian at birth – regardless of where they are born – if the person has at least one parent who was born here. Overview of the policy and legislative framework

- **Saint Vincent and the Grenadines National Economic and Social Development Plan 2013-2025** refers to diaspora under Goal 3 “Promoting Good Governance and Increasing the Effectiveness of Public Administration”, Objective 3.5, Strategic Innovations: “Enhance the engagement of the Diaspora in decision-making and the State’s foreign policy.”

>> Trends

Overall, the diaspora engagement landscape in SVG reflects several key trends and dynamics. The country’s recognition of the importance of its diaspora is evidenced by the establishment of the Regional Integration and Diaspora Unit in 2007, the formulation of a comprehensive diaspora engagement policy in 2013, and the implementation of initiatives such as the Vincy Homecoming celebration in 2009, and ongoing programmes such as the Garifuna Homecoming Rights of Passage and Pilgrimage. Strategic partnerships and crisis management efforts, particularly in response to natural disasters (e.g. the 2021 volcanic eruptions), attest to successful collaboration between the government and diaspora organisations. Furthermore, efforts have been made to enhance consular services, such as the establishment of consulates in New York City and Toronto.

Obstacles

- **Informal remittances:** The 2013 Diaspora Policy identified that while formal channels, “including the financial institutions (Banks and Credit Union) have been used, remittances to SVG have mainly been through informal channels. As a result, the remittance market is seen as being underdeveloped. The informal nature of transfers and the lack of full and reliable data on remittances make it difficult for developing economies to capture its true developmental impact.”
- **Lack of data:** There is a scarcity of official statistics regarding migrants, including returnees to the country.
- **Lack of opportunities:** According to certain media reports, some Vincentians are hesitant to return due to perceived insufficient opportunities, lack of facilities, and SVG’s poverty levels. They draw comparisons with the opportunities and living conditions in their countries of residence, particularly highlighting concerns about limited job prospects and unfavorable long-term career outlooks.

SPOTLIGHT: effective practices

The Garifuna Homecoming Rights of Passage and Pilgrimage Programme 2008

Focused on the preservation of cultural identities and community engagement, the initiative aims to reconnect Garifuna people with their ancestral roots and traditions. After a hiatus of a few years due to the global pandemic, the programme resumed in 2023.

The Vincy Homecoming 2009

Organised under the auspices of the Regional Integration and Diaspora Unit Office, the event strategically advocated for the diaspora's involvement in the national agenda, laying the groundwork for the Government of Saint Vincent and the Grenadines' Diaspora Policy. In 2022 the VINCY Diaspora Dialogue "Re-engaging the Vincentian Diaspora in a post-Covid & post-eruption era", was organised by the SVG Diaspora Inc of NYC inc. with the cooperation and participation of high-level officials. The action-oriented conferences have facilitated the sharing of experiences, knowledge and ideas, both from individual and organizational perspectives on various issues such as national development, the promotion of cultural heritage, and strengthening a sense of national belonging.

COMMUNICATION,
ADVOCACY

Mapping the Saint Vincent and the Grenadines Diaspora 2015-2017

The International Organization for Migration (IOM) conducted a mapping in close collaboration with the Government of Saint Vincent's Regional Integration and Diaspora Unit (RIDU). The primary goal of this initiative was to identify capacities and skills within the St. Vincent diaspora. The project registered Vincentian diaspora in North America and the Caribbean, and documented skills, resources, and the diaspora's propensity towards return migration.

DATA

SVG Disaster Relief Initiative Platform (SVG-DRIP) 2021

Exposed to natural disasters, in 2021 the island endured the severe consequences of volcanic eruptions. Numerous diaspora organizations extended their support through financial contributions and in-kind donations. SVG Relief USA, Inc. dispatched two containers with relief supplies and donated US\$20,000. Other organizations also made contributions, with the UK-SVG Friendship Trust donating EC\$ 330,000 (about US\$122,000) to the Government of Saint Vincent and the Grenadines. The Trust collaborated with the SVG High Commission, the National Council of St Vincent and the Grenadines Association UK, and over 7000 donors to raise the funds, which were promptly distributed to those affected.³ One of the first ventures of the integrated platform was to provide personal protective equipment (PPE) for frontline healthcare workers in Saint Vincent and the Grenadines during the COVID-19 pandemic.

CRISIS MANAGEMENT,
HUMANITARIAN AID

The Vincy Diaspora Dialogue 2023

Organised under the auspices of the Vincentian Consulate in New York and the SVG Diaspora Committee of NY Inc., the event focused on community re-engagement activities post-pandemic and natural disasters. Among other topics of interest, the debates focused on the targeted engagement of youth in the US through social media channels and the establishment of a youth-centred sub-committee, the need for continued community dialogues, leadership transitions in the Vincy diaspora, capacity building for diaspora organisations and accessing new streams of funding.
